

# Let's get to know the SwimGuide

Identify at first glance the status of your beach! (Green means *Safe*, Red means *Closed*). Check out the historical data too by clicking the icon!

The Swim Guide is in collaboration with Google Maps – You will find the easiest routes to get to your favourite beaches!

A description of the beach itself, activities and additional information allowing you to choose a beach according to your requirements.

These descriptions are currently bilingual (Fr and En)

Imagine yourself here! We try to get pictures on the Swim-Guide! This might help you make up your decision when choosing your beaches.

Share your favourite spots with everyone you know! Use media such as Facebook et Twitter

Source information - Gives you details on Sampling Frequency and Sampling Authority and additional information to let the public know about specifics.

Help protect your waterway by reporting pollution or environmental concerns. You can attach a photo with a description of the concern.

We've got you covered with extra informatin on the App, sponsors, waterkeepers, donation opportunities or how to contact the SwimGuide crew.
